WORK EXPERIENCE

Project Manager Intern   **Tann Mann Foundations (NGO), Bengaluru**   **10/2022 - 11/2022**
Project: WhirlyKop
WhirlyKop aims at assisting teachers and children by building a technology assisted educational platform using computer vision, automation corrected services, language processing technology and considering virtual classrooms.

- Led and collaborated with a cross-functional team of 12 professionals to plan and execute projects.
- Utilized project management tools (e.g., Gantt charts, project management software) to track and monitor project progress.
- Coordinated and facilitated 21 number of meetings with stakeholders to gather requirements and align project goals.

Software Developer Intern – Backend   **Noetic Logistiex Pvt. Ltd., Bengaluru**   **10/2021 – 03/2022**
Project: LogistieX | Node.js, Express.js, RESTful APIs, JavaScript, MongoDB, ReactJs
LogistieX is an End-To-End Logistics SAAS Platform. It aims at providing services such as Hub System, Last Mile, First Mile, Hyperlocal Deliveries, Smart Allocation, Reverse QC and Control Tower.

- Collaborated with the front-end developers and other team members to establish objectives and design more functional, cohesive codes to enhance the user experience.
- Built means to gather interactive customer data from multiple systems to analyze and evaluate using 50+ RESTful abstract APIs to the UI through a Node.js and express.js backend.
- Implemented X number of server-side logic modules or components that improved application functionality.
- Optimized front-end code and resources, resulting in 70% faster page load times and improved responsiveness.
- Developed core applications on Express, Node, MongoDB, and REST APIs.

PROJECTS

Forkify | API, HTML, CSS, JavaScript   GitHub: **Forkify - A Recipe app**
- Implemented search functionality that enables users to find recipes based on their specific requirements.
- Developed bookmarking feature that allows users to save and access their recipes.
- Designed a user-friendly interface that empowers users to create and store their own personalized recipes within the app.

Pandapop | ReactJs, Web Scraping, JavaScript, CSS, HTML, API   GitHub: **Pandapop**
- Provided users with the ability to search and download a wide range of songs.
- Featured a dynamic homepage that showcases the Weekly/Monthly Global Top 20 songs, latest releases on Spotify, etc.

Mapty | Web Scraping, JavaScript, CSS, HTML, Geolocation API, Leaflet   GitHub: **Mapty - Geolocation app**
- Designed geolocation-based app to assist users in recording and tracking their running and cycling workouts, including details such as distance covered, duration, pace, and steps per minute.
- Provided users a comprehensive overview of all their workouts, enabling them to monitor and analyze their progress over time.
